Open Letter – Peace for Middle East

Dear President Biden,

Thank you for your kind letter of May 21st, 2021. While the world's attention is focused on formulating a deal with Iran to limit the Islamic regime's activities in pursuing their development of nuclear weapons, the political suppression and abuse of human rights inside Iran has reached a new alarming level. Imprisonment, torture and murder of opponents of the regime have reached a new peak. The sham election of Spring 2021 in Iran, which was condemned by 90% of Iranian people, and the mass murders of the opponents by the regime, especially during the past few years, has lost any legitimacy of the Islamic regime to be the representative of Iranian nation. Iranian people, all over the world have declared this suppressive regime as illegal, and are seeking world community in their quest to establish a secular democracy in Iran. This can be instrumental to bring peace and stability across the Middle East, a desire that all peace loving people of the world community can cherish. The tyrannical regime of Iran is actively pursuing its ventures for terrorism, not only in the region but also in Europe and other parts of the world, as we are witnessing today.

A government that uses tactics of terror and systematic suppression, arrests, imprisonment, torture and murder of its opponents from all walks of life, including students, journalists, human rights activists, scientists, women who dare not to cover their hair with a scarf, truck drivers who go on strike, retirees and teachers who have lost all their pensions, and virtually all classes of its citizens that are struggling to uphold Human Rights for the nation, **cannot and does not have any legitimacy to govern, or to conduct any negotiations towards peace.** The most dangerous tool the Islamist regime has in its arsenal is **TERRORISM**, which is being pursued across the globe, and is endangering political stability of the Middle East.

Iranian people, by means of civil-disobedience are seeking an orderly regime change to establish a free, democratic and secular form of governance in Iran. Applying **smart political sanctions** against the Islamic regime, similar to the sanctions that were applied against South Africa during the apartheid era, banning the Islamic regime to participate in any United Nations meetings, and barring the regime's cadre and high ranking officials and their relatives from traveling abroad, residing in democratic societies, or to transfer funds they have plunder from the Iranian people to their bank accounts abroad, would assist Iranian people in their quest for democracy.

We, therefore, request the democratic world community in supporting the Iranian people for conducting a free election under the supervision of international observers. Any negotiations, deals or agreements, political or economic, open or secret, that the ruling Islamic regime has executed in the past will be subject to revision and/or cancellation by a democratic nation, and any further negotiations will only prolong its power-grip on the nation, and is therefore, condemned and declared **VOID** by Iranian people.

Respectfully,

B. Bahemian
