## *Secure Supply of Energy*

Dear President Biden,

Reference to your kind letter of May 21<sup>st</sup>, 2021, and unjustified war followed by criminal activities being conducted in Europe by Russia, Iranian people are determined to help the Western nations to strengthen the democratic values by offering their assistance in this dire situation.

Mr. President, a democratic Iran, as a genuine partner with the United States and European allies can and is willing to deliver needed oil and gas supplies to the Western countries to curb the sky rocketing prices, as well as participating in construction of an independent energy pipeline to Europe, through friendly countries such as Jordan and Israel (as shown in the attached diagram). Therefore, concluding an agreement, or a deal on nuclear technology, with Islamic regime, which is not representative of the Iranian nation, will prolong their rule over the suppressed people of Iran and atrocities being conducted in the country with the help of Russians and Chinese agents! Influence of Russian and Chinese governments in Iran, which is being expanded by establishing military bases in the Persian Gulf, will result in a disastrous political and financial situation for the free world! **A democratic Iran does not need nuclear arsenal.**

Iranian people, all over the world have declared this suppressive regime as illegal, and in their quest to establish a secular democracy in Iran, are seeking the support of world community. This can be instrumental to bring peace and stability across the Middle East; a desire that all peace loving people of the world community can cherish. Releasing any funds to this tyrannical regime will assist them in pursuing their ventures on terrorism, not only in the region but also in Europe and other parts of the world, as we have witnessed in the past forty three years!

A government that uses tactics of terror and systematic suppression, arrests, imprisonment, torture and murder of its opponents from all walks of life, **cannot and does not have any legitimacy to govern, or conduct any negotiation towards peace.** The most dangerous tool the Islamist regime has in its arsenal is **TERRORISM.**

Iranian people, by means of civil-disobedience are seeking an orderly regime change to establish a free, democratic and secular form of governance in Iran. We, therefore, request the United States Administration in supporting the Iranian people for conducting a free election under the supervision of international observers. Any negotiations, deals or agreements, political or economic, open or secret, that the ruling Islamic regime has executed in the past will be subject to revision and/or cancellation by future democratic government of Iran, and any further negotiations will only prolong its power-grip on the nation, and is therefore, condemned and declared **VOID** by Iranian people.

Respectfully,

For Political Committee
