Security of Free World

Dear President Biden,

Unrests, followed by massive demonstrations resulting in massacre of many innocent people who are opposing the illegal rule of so called “clerics” in Iran, has awakened the silent press all over the world. Iranians all over the world have demonstrated their support for the people under siege in Iran to stop the rule of terrorists in that part of the world. Islamic regime ruling the country over the past forty three years, has not been representing its people in any form. Women and young students, being the leading contenders in the recent opposition movement, have been denied their human rights and are brutally attacked and murdered every day in Iran. Appeasement of the Islamic regime, either by the United States or European countries is proved to be futile at best. Release of any funds to such a terrorist organization at present time, which would be used in expanding their subversive activities in the region at the expense of more suppression at home, would be betrayal of the people who are struggling to restore democracy in the country. The United States of America as the leader of free world has great responsibility in formulating the best avenues to preserve peace and security across the globe. Islamic regime of Iran, under the political, economic, and military influence of Russia and China are fueling the terrorist activities all over the Middle Eastern region, with their ultimate aim of controlling the sources of energy in the region.

Establishing a democratic form of governance in Iran, which is the objective of all protesters in Iran, can serve as a genuine partner with the United States and Europe to provide long-term security and stability in the region, participate in economic development plans, in partnership with desired countries to curb unnecessary migrations to Europe, as well as providing the necessary sources of energy for Europe. Your administration’s support of Iranian people in their quest for liberation and establishing a secular democratic form of government in Iran would be greatly appreciated.

We would welcome the opportunity of discussing further details with your administration.

Respectfully,

For Political Committee
